Or did you already have it?

Just in case: http://cdn.intechopen.com/pdfs/20791/InTech-Challenges_of_anticoagulant_rodenticides_resistance_and_ecotoxicology.pdf

If link does not work, I just googled: Philippe Berny Anticoagulant -- and it popped right up, then had to download the pdf.

Sorry I can't remember... hope I am not swamping your inbox
